ABOUT ME

Results-driven Frontend & MERN Stack Developer skilled in HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, and UI/UX design. Experienced in building responsive, high-performance user interfaces, integrating REST APIs, and implementing end-to-end MERN features including CRUD modules. Adept at creating reusable components, optimizing rendering performance, improving UX, and maintaining clean, well-structured code. Passionate about developing scalable, user-centric digital products.

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- React
- Next.js
- Node.js
- Express.js
- MongoDB
- REST APIs
- Responsive Design
- Figma
- GitHub

EXPERIENCE

2025 - NOW

Crescentek Company

MERN Stack Developer Intern

- Built full-stack web applications using React.js, Next.js, Node.js, Express.js, MySQL, and PostgreSQL.
- Developed responsive and reusable user interfaces using React.js, Next.js, Tailwind CSS, HTML5, CSS3, and JavaScript.
- Designed and integrated RESTful APIs with Node.js and Express.js for authentication and CRUD operations.
- Implemented JWT Authentication, middleware, request validation, and secure password hashing using bcrypt.
- Designed and managed relational databases using MySQL and PostgreSQL, including schema design, relationships, and optimized CRUD queries.
- Used Git & GitHub for version control while following clean architecture and best coding practices.

PROJECTS

BuddyPets

HTML + CSS + Bootstrap + JavaScript + PHP + MySQL

Github: <https://github.com/pranjal1606/buddypets>

Pet Adoption Website

- Built a pet adoption platform with user and admin dashboards.
- Implemented pet listings, adoption requests, and category management.
- Developed CRUD operations using PHP and MySQL.

PMJ Scaffolding (React.js)

React.js + Tailwind CSS + JavaScript

Github: <https://github.com/pranjal1606/PMJ-Scaffolding>

- Developed a responsive corporate website using React.js and Tailwind CSS.
- Built reusable UI components and responsive layouts for desktop, tablet, and mobile devices.
- Integrated REST APIs and optimized user experience with clean component architecture.
- Focused on performance, accessibility, and responsive design.

PMJ Scaffolding (Next.js)

Next.js + React.js + Tailwind CSS

Github: <https://github.com/pranjal1606/PMJ-Scaffolding-NextJs>

- Rebuilt the PMJ Scaffolding website using Next.js to leverage file-based routing and server-side rendering.
- Developed reusable components and optimized page rendering for improved performance and SEO.
- Integrated REST APIs and implemented scalable project architecture.
- Improved loading speed and maintainability using Next.js best practices.

ToDo Management API

Node.js + Express.js + TypeScript + PostgreSQL + TypeORM

Github: <https://github.com/pranjal1606/todo-api>

Backend REST API built using modern TypeScript architecture and PostgreSQL.

- Developed using Express.js, TypeScript, PostgreSQL & TypeORM
- JWT Authentication with Refresh Tokens
- Input validation using Joi and secure password hashing
- CRUD APIs with modular architecture and database relations

Expense Tracking Application

Next.js + Node.js + Express.js + MySQL

Github: <https://github.com/pranjal1606/expense-tracker>

Full-stack expense management application with secure authentication and financial reporting.

- JWT Authentication and role-based access
- Daily balance, income & expense tracking, categories, and reports
- RESTful APIs using Node.js & Express.js
- MySQL database with CRUD operations and validation

EDUCATION

2023 - 2026 Marwadi University	Bachelor of Technology (Computer Engineering) CGPA: 8.84
--	--

2020 - 2023 Atmiya University	Diploma in Computer Engineering CGPA: 9.65
---	--

CERTIFICATIONS

Nayee Dishayein	Certified Software Programming Engineer 3.0 (IANT) — Grade A
------------------------	--
